

Colorado Association for Infant Mental Health

Bi-Annual Teach-In

Being With: Supporting Families through Early Parenting Challenges

Linda Gilkerson, PhD

Teach-In Focus

The Teach-In will focus on the theoretical framework and clinical approach developed by Erikson Institute's Fussy Baby Network to support vulnerable parents who struggle with their baby's crying, sleeping, or feeding during their baby's first year.

You will learn about...

How to address parent's urgent concerns through using five core intervention processes which promote longer-term parenting capacities, particularly, maternal self-efficacy

Through discussion, role play, and case presentations, explore the application of these concepts to the developing Fussy Baby Network Colorado affiliate program at University of Colorado Denver and to the settings in which you work.

Friday February 12, 2010

8:30 AM - 4:00 PM

Location:

The Children's Hospital

Mt. Yale Conference Room, 2nd floor

13123 E. 16th Avenue
